

TRANSITION ÉNERGÉTIQUE : 3 MINUTES POUR CHANGER LE MONDE

Student Contest Rules – 2019 AQPER Annual Symposium (February 6, 2019 - Hôtel Château Laurier Québec)

In short: this is a science popularization contest for graduate students.

Why should you participate?

This contest offers to the finalists:

- a chance to win one of the **3 Transition énergétique Québec scholarships**, totalling \$3,000: 1st prize of \$1,500, 2nd prize of \$1,000 and 3rd prize of \$500.
- a **full student pass for the 2019 AQPER Annual Symposium** valued at \$150, which includes access to all conferences, networking activities and meals.
- a unique opportunity to present their research project to representatives of Quebec companies involved in the Quebec energy transition;
- the opportunity to disseminate their research project to a diverse audience (the best presentations will be available online after the conference).

In addition, finalists from outside the Quebec City area will receive **free accommodation** for the night of February 6, 2019.

The contest rules?

In a maximum of 3 minutes, each finalist will have to present:

- in French or English;
- its research project related to Quebec energy transition;
- using only a single slide without animation or video as a support.

Each presentation will be followed by a short question period.

The winners of the contest will be determined by a jury.

To be eligible, candidates must:

- present an **original** research project related to **Quebec energy transition**;
- be able to express themselves clearly in French or English;
- be enrolled as a **full-time student** in a graduate program (M. Sc. A, M. Ing., MBA/EMBA, Ph. D, etc.) for the **winter semester 2019** - *postdoctoral students are not eligible*;
- be available to attend the final at the Hôtel Château Laurier Québec on February 6, 2019;
- **submit the completed registration form by December 14, 2018, 23 h 59.**

Qualification process for the final	Deadline
1. As a first step, the jury will make a first selection among the eligible candidates by:	December 21, 2018
2. Selected candidates will be invited to provide a short personal introduction video and details about the format, content and how to submit the video will be provided. Videos must be submitted by:	January 11, 2019
3. Selected candidates from Step 2 will receive an invitation to participate in the final on February 6, 2019, at the Hôtel Château Laurier Québec. Finalists will be contacted before:	January 25, 2019

The judging criteria will be sent to the finalists before January 25, 2019.

Examples of topics related to the energy transition:

- new technical solutions for renewable energy (wind, solar, biomass, biogas, biofuels, small hydro, etc.);
- the economic challenges of the energy transition;
- barriers to personal involvement in the energy transition;
- the role of the media in the energy transition;
- study on the discourse on energy transition and climate change.
